

Dashboards and Gadgets

Apwide Golive is shipped with the following gadgets that you can use in your Dashboards:

- [Environments Gadget](#)
- [Environments Matrix Gadget](#)
- [Timeline Gadget](#)
- [Statistics Gadgets](#)
- [Environments Gadget \(deprecated\)](#)
- [Timeline Gadget \(deprecated\)](#)

These gadgets will be immediately available for your Jira dashboards after installation of Apwide Golive.

Display Golive Gadgets in Confluence

If you want to use these gadgets on your Confluence pages, you will have to perform few additional steps as described in the following Atlassian documentation:

[Confluence Support - Registering External Gadgets](#)
